Date

Thursday, December 4, 2008:
8:00 am – 5:30 pm

Friday, December 5, 2008:
8:00 am – 5:30 pm

Official Language

English

Registration Fees

December 4 – 5, 2008: € 550,-
Before September 1, 2008

December 4 – 5, 2008: € 650,-
After September 1, 2008

The registration fee includes
the participation in the Social
event on December 4, 2008
and a DVD of the Symposium
in full length.

Accommodation

A block of rooms has been
reserved at several hotels
in Leipzig. You may reserve
your hotel room by contacting
the hotels as listed below.
Please mention the keyword
„Herzzentrum Leipzig/Heart
Center Leipzig“ when reserving
your room.

Seaside Park Hotel Leipzig

Phone: +49 (0) 341.9852-707
reservierung@parkhotelleipzig.de
www.parkhotelleipzig.de

Rates: € 90 – € 110

*The hotel should receive your reservation
no later than November 4, 2008*

Hotel Renaissance Leipzig

Phone: +49 (0) 341.1292-109
sabine.ulrich@renaissancehotels.com

Preface

F.-W. Mohr

R. Lange

M. Elliott

Dear Colleagues and Friends,

we cordially invite you to the Fifth Focus on Congenital Heart Disease Live Symposium on Surgical and Interventional Treatment to be held at Leipzig in December 2008.

This fifth joint live symposium has been organised in succession to the previous meeting held in London and Munich. It will give an overview on the current standard and latest developments in pediatric cardiac surgery and in interventional pediatric cardiology. We will focus on the current aspects of the treatment of the hypoplastic left heart syndrome (day 1) and management of the the early correction of TOF as well as the management of the recurrent RVOTO (day 2). Current strategies for the HLHS remain divided basic in to three different groups. We invited leading surgeons and cardiologist for each group. All these aspects will be covered by interesting live sessions as well as specially focused talks.

The distinguished faculty as well as the clinical experience of the three organizing centers for the treatment of congenital cardiac defects, the German Heart Center Munich, the Great Ormond Street Hospital for Sick Children London and the Heart Center Leipzig will guarantee a unique and successful symposium. A high level of direct interactive discussion will be possible during the live session.

We are looking forward to welcome you in Leipzig.

Yours sincerely,

Friedrich-Wilhelm Mohr, MD, PhD

Rüdiger Lange MD, PhD

Martin Elliott, MD, PhD

Preliminary Scientific Program

Management of the univentricular heart

Thursday, December 4, 2008

- 8:00 am Welcome
F. W. Mohr/R. Lange
- 8:15 am **Initial Therapy**
Chairmen: S. Sano/D. Schranz/M. Kostelka
- Live case 1: Norwood (I)
J. Scheewe/T. Walther
 - Catheter Case: Dilatation distal aortic arch/ Re-coarctation after Norwood I
J. Hess/I. Dähnert
 - Live Case 2: Bidirectional Glenn by HLHS (Norwood II)
R. Lange/C. Schreiber
 - Talk: HLHS – anatomical features
R. H. Anderson
 - Talk: Preoperative management for HLHS
N.N.
 - Talk: Norwood I – contribution of the Sano shunt
S. Sano
 - Talk: HLHS – the hybrid approach
D. Schranz
 - Talk: What we can do with very hypoplastic asc. Aorta technical considerations
W. J. Brawn
- 12:15 pm [visit exhibits and lunch break](#)
- 1:45 pm **Secondary management**
Chairmen: R. Lange/J. Hess/J. M. Quaegebeur
- Live Case 3: DKS + shunt (single ventricle + subaortic stenosis)
W. J. Brawn/A. Fabricus
 - Catheter Case: Stenting pulmonary artery after Glenn/ TCPC – alternatively video presentation
I. Dähnert
 - Live Case 4: TCPC (Norwood III) alternatively conversion Fontan to TCPC + Ablation therapy
V. Tsang/A. Rastan
 - Talk: Arrhythmia after Fontan – the cardiologists perspective
J. Janousek
 - Talk: Long term outcome of the classical Fontan indication to conversion
R. Lange
 - Talk: Intra – versus extraatrial TCPC
J. M. Quaegebeur
- Honorary lecture:** Univentricular heart: Did we find the optimal management already
M. R. de Leval
- Special lecture:** The new structure of EACTS – Implications for pediatric cardiac surgery
P. R. Vouhe

7:30 pm [Social event](#)

Different approaches to CHD

Friday, December 5, 2008

- 8:00 am **RVOT obstruction**
Chairmen: M. R. de Leval/J. Janousek/T. Breyermann
- Intraoperative transesophageal echo
V. Razek
 - Live case 5: Neonatal Fallot repair
M. Kostelka/M. Cho
 - Catheter case: Balloon PS dilatation
I. Dähnert
 - Catheter case: PA bifurcation stenting
J. Hess
 - Live case 6: Transatrial Fallot repair
J. M. Quaegebeur/T. Walther
 - Talk: Key anatomical factors of RVOTO
R. H. Anderson
 - Talk: Fallot – timing of surgery – the cardiologists view
F. Berger
 - Talk: Fallot – timing of surgery – the surgeons view
M. Kostelka
 - Talk: RVOTO Imaging (MRI)
M. Gutberlet
 - Talk: Advanced imaging modalities to guide transcatheter interventions
C. E. Brockmann
 - Talk: RVOT – timing for reoperation – surgeons view
V. Tsang
 - Talk: RVOT – timing for reoperation – cardiologists view
J. Hess
- 1:30 pm **RVOT redo/transcatheter valves**
Chairmen: F.W. Mohr/M. Yacoub/P. Bonhoeffer
- Live case 7: Redo RVOT valved conduit implantation
T. Breyermann/H. Goerler
 - Live Case 8: Transcatheter pulmonary valve implantation
I. Dähnert/P. Bonhoeffer
 - Talk: RVOT – do homografts better than other grafts
M. Yacoub
 - Talk: Contegra for RVOT repair – where are we now?
T. Breyermann
 - Talk: Periventricular pulmonic valve implantation
C. Schreiber
 - Talk: Right sided interventional valve implantation – current results
P. Bonhoeffer
 - Talk: Perspectives in left sided surgical/ interventional valve replacement
T. Walther
- 5:30 pm Closing remarks
F. W. Mohr/R. Lange
